Magic The Gathering: Official Encyclopedia : The Complete Card Guide

Synopsis

A global games phenomenon, Magic: The Gathering is to the 1990s what Dungeons and Dragons was to the 1980s, but with the added dimension of collectibility. Here is the official reference to the biggest new teen/young adult fantasy game of the decade, complete with full-color reproductions of every existing Magic card. Foreword is by Richard Garfield, creator of the game. 2600 color illustrations.

Customer Reviews

Volume 2 covers Mirage, Visions, 5th Edition, Weatherlight, Portal, and Arena League (only 1 page for this last). As always, this volume covers ONLY those expansions released between the publication of the 1st and 3rd volumes of the encyclopedia, and ends with a "Deckbuilder's Indexes" section. This last is the only reference to other expansions of Magic, so it actually isn't useful anymore; the deckbuilder information for the most current volume should be used instead. Frankly, this volume should not have been released until a few more expansions were out; it's skimpy, but if you want complete coverage of all Magic expansions, you're pretty much trapped; the 2 stars are for the material not available in other volumes. The introductory material (i.e., the section before the expansions are presented) is a bare minimum in this volume: "How to Use this Guide" and "A Visual Guide to Magic Cards". The book isn't intended to teach a newcomer to play the game, or to explain much of Magic strategy; seek elsewhere for that sort of thing. On the other hand, each expansion covered in Volume 2, as usual, is provided with its own introduction, describing any new twists

added for that set (including new types of decks that came about as a result), any noteworthy cards in that set, and a very brief description of the storylines affected by the expansion). Consequently, the entertainment value of the introductions is in inverse proportion to the number of broken cards in the expansion and the severity of the flaws, so the introductions in this volume are much more bland than those of Volume 1.
