This is a book that changed my life! If you are looking how to improve yourself and really ignite your own potential to have success in life, then, read Dianetics! It is a manual that will explain to you how your mind work and how you can be free of any pass experiences of the pass that are affecting you in your life without you even know it!Dianetics work, is easy, read it!

As the most published reviewer of "Dianetics" in the world I am pleased to provide you with this review. I recently purchased a new copy of this book through (Aug 2013) I got a great deal and appreciate the quick shipping. I have owned many copies of Dianetics and was in need of a fresh copy to mark up with my highlighter. I don't think I have enough time to discuss all the things I love about this book. It got me involved in a new way of life and has provided me a partial solution to my temper. This book will help anyone trying to improve themselves by explaining our thought process and the root cause of mental distress. L Ron also ties in new tools related to communication. This is a great first book on the subject of the mind. I can easily say that this book has saved my life and I would recomend it to everyone.James Houston Class VII Auditor
