Customer Reviews

Great resource for anyone either contemplating becoming a step - family or already in one. It is very practical and reassuring with some good topics to discuss within the couple and groups (if applicable). Also recommend the workbook for the DVD series and the text book which both go with the DVD. My partner and I have already found them challenging and invaluable for us and the children.

Would highly recommend this to any parent in a step family. Especially YOUNG ADULTS. The wisdom in this series can be very helpful! Would also recommend to anyone considering divorce! It may give an incentive to consider counseling with your spouse!

It was a rude awakening but definitely worth it. Being able to watch the videos together was worth the extra money as opposed to the books.

We've gotten through the first 4 sessions and definitely are into it. We really like his practical

real-world advice that jives exactly with what we have been experiencing!

great study for all types of blended families and for singles that are planning to marry into a blended family situation.
